Information-Seeking Behaviors – a Study of Service Engineers in an Industrial Context

Objectives
• Contribute with knowledge to the technical communication research field of task based information-seeking behaviors among service engineers in a maintenance work task context
• Contribute with knowledge to the technical communication research field of task based information-seeking behaviors among service engineers in a maintenance work task context

Current status
• Writing journal article based on empirical study, “An Investigation of Service Engineers Information-Seeking Behavior in a Maintenance Workshop”
• Finalizing licentiate thesis

Planned activities
• Present licentiate thesis, October 2015
• Design overall Ph.D. research plan

Supervisors
• Main supervisor: Yvonne Eriksson, MDH
• Assistant supervisor: Carina Söderlund, MDH
• Assistant supervisor: Inger Orre, MDH
• Industrial advisor: Niklas Thorin, Exosoft
